**Congreso de Paraguayos Migrantes en los Estados Unidos, Inc. to distribute Wildlife Storytellers toy stuffed animals in Paraguay.**

Starting in March, CPMUSA will be distributing Wildlife Storytellers toy stuffed animals within Paraguay. Wildlife Storytellers were strategically developed to make a long lasting impact on children around the world. Their story telling toy animals share gospel messages in a comforting format for children or adults who have experienced trauma and pain.

According to Ana Di Sessa, President of CPMUSA, this is a great opportunity to provide soft lovable stuffed animals to a child and give them an opportunity to learn about the bible. What's more exciting is that future recorded messages will speak about hygiene and other important health messages. What better way to hear these messages by listening to a Storytelling stuffed animal.

Each Wildlife Storyteller animal is child certified. The recorder device is powered by solar power and rechargeable by a light source. No batteries are required.

This will be an ongoing project.
